

## **Action Plan: AIFF-C 1.0**

**Implementation Date :** Not implemented.

**Last Review:** 10-08-07

### **1. Ingest Processing (Not yet implemented)**

- Identification: Yes.
- Validation: Yes.
- Characterization: Yes.
- Normalization: Yes.
- Migration: No.

### **2. Significant Properties**

To be determined.

### **3. Long-term Preservation Strategy**

#### **3.1 Long-term Preservation Strategy for the Original**

If a normalized version was created for the original, then the original will be preserved in bit-level only. If a normalized version was not created for the original, migrate the original to a non-lossy, open audio format when one is found is to be a good successor to the AIFF-C format.

#### **3.2 Long-term Preservation Strategy for the Normalized Version(s)**

Migrate the normalized version to its successor format (when one is determined to be the successor).

### **4 Timetable of Anticipated Short-term Actions**

Write converters from AIFF-C files with data in one of a limited number of compression algorithms (TBD) to AIFF files.

### **5 Timetable of Action Plan Review and Revision**

Review and revise action plan in 2 years (Oct. 2009).
